PRINCIPAL’S PEN: 2015 REVIEW
This year saw some major improvements to the school. The basketball court was resurfaced with synthetic grass and new reversible netball/basketball rings. The flood in the library provided an opportunity to create a brand new 21st century Junior Learning Hub where students can learn, collaborate and create together.

The P&F paid for brand new, comfortable, bright and colourful furniture for the Hub which makes for an exciting and flexible learning environment for our Prep-Ones next year. Extracurricular included camps, BOITE Choir, Nicki’s Nightmare and Sporting Schools. Thanks to the P&F and families for supporting events such as the Duck Cup and our army of volunteers throughout the year which allows great things happen at this school. Thanks also to the Board for their advice and support this year.

SCHOOL VISION: 2016
Our major focus is creating an environment for students to collaborate and create using technology as a learning tool. Google Apps For Education (GAFE) will be a powerful tool for students to learn and also share and connect with parents and other students and schools. We also have a languages grant that will focus on professional learning using IT and new contemporary learning space.

This our last message as captains ever. We hope the Carols go well and good luck with the Grade 6’s with their transition to high school.

Even though school is nearly over, work hard and do your best! Don’t forget to keep practicing your Christmas Carols. Good luck to Grade 5’s who tried out for School Captain next year. It’s a big responsibility but we’re sure you can handle it!
